

To whom this may concernBig business needs to let someone with intelligence build there business just like anyone else.XM radio has brought forth an idea that people want to purchase.If the big boys want to play they need to provide better than XM has to offer.Undue influence is imposed at the wrong level.My leaders on all levels have for gotten who pays there wages.Leave xm alone and allow them to bring me the kind of Radio Service i happen to enjoy.....Thank You! Robert.
